Silver Willow Farm Rescued Center saved *Barnie*, a big beautiful draft horse.

This 2000 pound horse was found in a Mennonite's field unable to stand or defend himself against a dog eating his flesh alive. The owners had said he had been down for days and where "waiting for him to die so the dead stock truck could pick him up". He was surrendered into the custody of Laura McArthur of Silver Willow Farm in Mulmur Ontario and the rest is history. This workhorse that pulled a plough all his life now has a bright happy future, freed from slavery.
